Bluewater Energy Solutions Awarded Check-Out and Start-up Support services for the Atikokan Generating Station biomass conversion project.

Project located in Atikokan, Ontario and Bluewater Energy Solutions provides Aecon's Industrial division Check-Out and Start-up Support services.

The Atikokan GS will be one of the largest biomass plants in North America, with more than 200 MW of capacity. It will generate renewable, dispatchable, peak capacity power. Bluewater Energy Solutions will provide Check-Out and Start-up Support services for the construction of a fuel storage and handling system to manage the biomass.

About Bluewater Energy Solutions

Bluewater Energy is a leading provider of Check-Out and Start-up Support Services, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client's expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
