Bluewater Energy Solutions Awarded Startup and Commissioning Services for the Vineland Municipal Utilities, West Avenue Power Plant.

Bluewater Energy Solutions will provide Vineland Municipal Utilities Project located in Vineland, NJ, with startup and commissioning services.

Bluewater Energy Solutions is pleased to announce that it has been awarded a contract to perform startup and commissioning services for West Avenue Power Plant located in New Jersey.

Construction has begun on the West Avenue Power Plant, a 60-megawatt simple-cycle combustion turbine facility near Vineland, NJ.

“Bluewater Energy is excited to work with Vineland Municipal Utilities on this important power project in New Jersey. This major project will provide many jobs to the local area and we look forward to working with Vineland Municipal Utilities and their site team,” said Perry Novak, President of Bluewater Energy Solutions.

About Bluewater Energy Solutions

Bluewater Energy is a leading provider of startup and commissioning, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client’s expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
