

Atlanta, GA. | August 29<sup>th</sup>, 2012

---

**Bluewater Energy Solutions is pleased to announce that Deer Creek Station successfully entered into operation on August 1st, 2012.**

*Project located in Elkton, SD and Bluewater Energy Solutions provided Basin Electric startup and commissioning services.*

The 300-net megawatt natural gas combined-cycle generation facility began commercial operation Aug. 1.

After several years of planning and two years of construction, state and local officials, the public and the Basin Electric family will celebrate the successful operation of [Deer Creek Station](#), Basin Electric's first combined-cycle power plant, at a dedication ceremony Aug. 16 at the plant site near Elkton, SD.

**About Bluewater Energy Solutions**

Bluewater Energy is a leading provider of startup and commissioning, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client's expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
