Bluewater Consulting Services providing staff augmentation services for the Jaguar Energy Guatemala project.

Project located near Puerto Quetzal, Guatemala and Bluewater Consulting Services provides Jaguar Energy Guatemala startup & commissioning augmentation services.

The Jaguar project consists of the development, construction, operation and maintenance of a 300 MW (approximately 275 MW net capacity) solid fuel-fired power generation facility to be located approximately 15 miles from Puerto Quetzal, Guatemala. Jaguar entered into two 15-year PPAs with Gas Natural's local distribution companies Distribuidora de Electricidad de Occidente S.A. and Distribuidora de Electricidad de Oriente, S.A. to supply a total of 200 MW of capacity and associated energy. The remaining 75 MW of capacity and associated energy are expected to be sold in the Guatemalan and regional wholesale power markets.

About Bluewater Consulting Services

Bluewater Consulting Services provides professional, qualified consultants to support your augmentation needs. BCS prides itself on providing our clients with augmentation solutions to meet the rigorous challenges encountered during a project.
