## **Bluewater Energy Solutions Awarded Startup and Commissioning Services for the EDF Renewable Energy, Pinelands Biomass Projects.**

*Project located in Allendale and Dorchester Counties, SC and Bluewater Energy Solutions will provide EDF Renewable Energy startup and commissioning services.*

The Pinelands project consists of two nominal 17.8 MW generating facilities located in Allendale and Dorchester Counties in South Carolina. Both projects are currently under construction and expected to be fully operational by the end of 2013.

The projects use a well proven biomass design with a stoker boiler, supplied by FSE Energy (FSE) and a steam turbine generator supplied by General Electric (GE). Bibb Engineers is the engineer of record and the general contractor is a joint venture between Summit Industrial Construction and MMR Group, Inc.

### **About Bluewater Energy Solutions**

Bluewater Energy is a leading provider of startup and commissioning, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client's expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
