## **Bluewater Energy Solutions Mobilizes Startup and Commissioning Services for the We Energies, Rothschild Biomass Project.**

*Project located in Rothschild, WI and Bluewater Energy Solutions provides We Energies startup and commissioning services.*

This is a \$255 million biomass-fueled power plant at Domtar's Rothschild, Wisconsin pulp and paper mill site. Logging residue, waste wood and sawdust will be used to produce 50 megawatts of electricity and will also support Domtar's sustainable papermaking operations.

Construction of the plant is nearly complete, startup and commissioning have begun, and the facility is expected to be operational in late 2013.

### **About Bluewater Energy Solutions**

Bluewater Energy is a leading provider of startup and commissioning, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client's expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
